**Summary: LATE FILED.** On May 25, 2004, Kenrick LeDoux, Chief Technical Officer of the Navigator Telecommunications, LLC (Navigator), met with Cmmr. Lynch and Tim Sullivan, advisor to Cmmr. Kennedy, in two separate meetings in San Francisco. At the meeting with Cmmr. Lynch also present was Tom Long, advisor to Cmmr. Lynch. Glenn Stover, attorney for Navigator, participated in both meetings. Written material (attached to the notice) was used. Representatives from Navigator stated that the proposed UNE pricing decisions (PDs) contained ruinous retroactive 'true-ups,' that increases in the UNE loop rates would make Navigator's continued participation in the local service market questionable, that the proposed rates would facilitate, rather than prevent, monopoly pricing, and that both PDs unacceptably abdicated reasoned decision-making by splitting the difference between the SBC and HAI models, when the record actually supported the outputs of the HAI model much more robustly than the output of the SBC model.
